

LOCAL NEWS.

THE LATE FIRE.—At the investigation going on before a committee of the Alexandria Steam Fire Company, relative to the cause and management of the fire, by which the market building was destroyed, among the witnesses examined on Tuesday night were Messrs. Richard Purcell, J. M. Stewart, J. H. McLean, Ramsay, Kilgour, Young and Ball.

Mr. Purcell testified that he was the first one at the Columbia Engine House; after some delay went with the engine to corner of Prince and Royal streets, according to orders, and made attachment to fire plug there; found plug screwed down tight; started engine but found that there was no water, and that pump would not feed as fast as engine required; was informed from fire that engine was doing nothing; replied could not help it; had no water; found water going out of boiler; ordered fire to be drawn; had orders to move to corner of Cameron and Fairfax streets; after disconnecting suction pipe from plug, was informed that there was more water; suction pipe again attached to plug, and think it was about ten minutes in getting water from second to third gauge; then again cut loose, and the horses not being there, engine was pulled by hand to the plug at the Sun engine house; but upon reaching there found that one of the hand companies had the plug, and it was not given up for some time; finally got the plug and went to work, but after working for about fifteen minutes found no water; could not force water on Lodge room without getting a ladder and going up on the building between the Lodge and Sun engine house; suddenly the water came, and with such force that it nearly threw the pipeman from the ladder. It had been said that Columbia wasted water; she did at Sun engine plug, but when there had all the water wanted at one of the gates; that waste was caused by a small spring which had become warm, and which was fixed afterwards.

Capt. J. M. Stewart testified that he assisted Mr. Young, Engineer of Hydraulics, in making connection with plug at corner of King and Royal streets; do not think it was more than five minutes before engine was at work; a very light stream was being thrown from the pipe; then started for Hook and Ladder Company and assisted in placing ladder on Brill & Beach's house; in the lower part of which was the hose; went into the alley and upon returning found that the eaves of the Market House were on fire; attempted to exchange a short ladder at the Market House for a long one at Brill's, but finding the hose full of water and pressing heavily on the ladder, had to abandon the attempt; then went on the ladder and reached the pipeman to throw water on the Market House; was informed next day by a pipeman that the plug was too large and he was unable to throw water on the Market House; at the time Brill's house fell in hose was through the second story window of Cogan's house and at that time steeple of Market House was on fire; stream from pipe of Columbia was only thrown a distance of about two feet, and pipeman remarked that he could do no better as there was no water; suggested the moving of Columbia to another plug; engine was moved to corner of Cameron and Fairfax streets; but threw water only a short distance; after the lapse of twenty minutes or half an hour there was an abundance of water; after steeple was burned suggested that the property on Royal street and houses in alley had better be saved and prevent spread of fire. Next morning said to Mr. Power, jokingly, "Why do you stop the water off at night?" his reply was, "the water is never turned off;" then I remarked, "when the courier went to the reservoir we had an abundance of water, and I understood him to say, 'no courier came there.'"

Geo. Usher testified that Columbia engine could not throw water from Royal street plug; and after change of position to Sun plug, could not throw water on Market House; that he was on the roof of Brill & Beach's, although on a shed with the hose; Sun engine was trying to throw water from its plug; it was fifteen or twenty minutes after Columbia took that plug before water came; the hose was straight; nozzle used was 1 1/2 inches, same as used day of trial of engine.

A. T. Ramsay corroborated Mr. McLean's statement as to not being able to throw water on the roof of the house of Messrs. Brill & Beach; engineer of Columbia, in explanation, stated that there was no water; requested by Mr. Latham and Chief Engineer Kell to go to the reservoir, cooped, waked up and told the Superintendent to put on a full head of water and work the pumps; from plug at corner of Prince and Royal streets could only throw a very small stream; when I returned from the reservoir there was a full head of water on.

Wm. Kilgour, President of Columbia company, testified as to the location of engine on the corner of Royal and Prince streets, from which it was throwing a very light stream on account of scarcity of water. Mr. Young in reply to an inquiry, stated that it was impossible to throw water when it could not be had. Mr. Latham informed witness that a messenger had been sent out to Water Works and in a short time afterwards there was an abundance of water.

Joseph H. Young testified that Hydraulics had up steam in five minutes; Chief Engineer had two lines of hose put on, but found could not get water for both streams; asked for a nozzle, but could not get ours off; was told to cut off one line; refused to obey every body, and by orders from commander cut off one line of hose; had full supply of water all night and did not observe any increase, and with one stream with 1 1/2 inch nozzle could have saved the Market House; did not hear any person say, "we are to get ten dollars apiece to save Cogan's house;" think I told Messrs. Kilgour and Smoot that I did not have enough water for two streams.

M. D. Ball testified as to the hose being all straight and in good order, and as to a sufficient supply of water for the engines. Without concluding the investigation the committee rose to meet again to night, when it will be concluded.

FESTIVAL IN WARRENTON.—The ladies of Warrenton held a strawberry and ice cream festival on the nights of Monday and Tuesday last to raise funds for the erection of a monument to the Confederate dead buried near that town. That their effort was successful no one who has heard, or knows any thing about the attractions of the Warrenton ladies, entertains a doubt. There is not a true man in that town or in the country round about, who would not cheerfully give his last greenback for a bright glance from their sparkling eyes, or a pleasant word from their crimson lips.

COMPLIMENT.—The Superintendent of Public Instruction, in a letter to the County Superintendent of Public Schools for Alexandria county, says:—"The result of the vote on the school tax was more favorable in your county than in any from which we have heard." We may add that the levy voted was, probably, greater than any other in the State, being up to the highest limit allowed by law.

RESCUED.—A little boy named Joseph Taylor while fishing near the upper coal wharves, yesterday evening, had a fit and fell into the river. Fortunately assistance was at hand and he was rescued before he received any serious injury.

AUDI ALTERAM PARTEM.—An item in last Sunday's Washington Herald complained of the conduct of Capt. A. C. Nickle of the steamer Express, in leaving a couple of excursionists at Glymont last Thursday. Capt. Nickle is a polite and accommodating gentleman, and consequently is exceedingly popular, and that he should have acted as is reported can hardly be believed by those who know him. He says that Mr. Young, the principal of the Emerson Female Institute, who had chartered the boat to take his school on an excursion to Glymont, stood on the wharf at that place, and after waiting a sufficient time for all who were within sound of the whistle to reach the boat, gave him orders to start. When at least a mile from the wharf a young man told him that the young lady he had escorted was not on board, but that as he did not know whether she would be at the wharf if he returned there, he did not do so, especially as there were accommodations in the neighborhood, and as the mail boat stopped there regularly.

CORONER'S INQUEST.—An inquest was held this morning at pier No. 4, south wharves, by Coroner Beach upon the body of a colored man found floating in the river yesterday evening just below the city. As no evidence was evoked by which the cause of the death, or even the identity of the body could be ascertained, the verdict of the jury, of which Mr. James McLean was foreman, was that the deceased came to his death by causes unknown. The body was very much swollen, but a severe bruise was distinctly visible on the temple. It is supposed that the name of the deceased was Geo. Burke, who lived in Stafford county, Virginia, and who was knocked overboard on Monday morning last from the long boat John Franklin, by the jilbing of the boom, as mentioned in the Gazette of that day.

STRUCK BY LIGHTNING.—The clap of thunder which ushered in the storm of yesterday evening was preceded by a stroke of lightning which struck and split the ball on the steeple of the Court House. It is fortunate that no more damage was done, as the building was not protected by a lightning rod. A son of Mr. Robert Tomlin, residing in the neighborhood, was stunned by the same stroke, and a dog, near by, was also stunned. It seems passing strange that buildings as important as the Court House should be allowed for years to remain without a lightning rod, especially when it is recollected that the same building was struck by lightning once before.

THE ORIGIN OF THE LATE FIRE.—The Committee of the City Council appointed to investigate the origin of the late fire, met again yesterday evening, and continued their examination of witnesses. William Goodhand, Jos. Huntington and Craven Peyton were examined. The evidence elicited was entirely unimportant, though that of two of the witnesses was essentially contradictory. The meeting adjourned until this evening, when the investigation was to have been continued.

THE NEW MARKET HOUSE.—The committee of the City Council, appointed to consider the plans for the new Market House and to devise the means required to erect the proposed building, did not meet last night, but will meet at the Auditor's office at eight o'clock to-night. It is understood that several distinguished architects will be contestants for the prize to be awarded for the selected plan. An exact copy of the plan of the old steeple has been obtained.

INFRACTION OF INTERNAL REVENUE LAWS.—Bernard Rosson, of Culpeper county, was arrested and brought here on Monday last charged with an infraction of the Internal Revenue laws, in selling whiskey barrels with stamps uncancelled. He was examined before U. S. Commissioner Whittesey and bailed for his appearance at the next term of the U. S. Circuit Court.

CANAL NAVIGATION.—As stated in yesterday's Gazette a temporary suspension of navigation has occurred in the Alexandria canal. The water was let off to allow of the removal of some rocks that had fallen into the canal at the stop lock above the basin. It was let on again last night, and boats arrived here to-day.

CONTRACT AWARDED.—Messrs. Risheill & Hooge, the enterprising and energetic proprietors of the Virginia Sash Factory in this city, have obtained the contract for furnishing the mill work for the new market house in Washington.

SUNDAY SCHOOL TEACHERS' INSTITUTE.—A Sunday School Teachers' Institute, under the direction of Rev. J. S. Ostrander, of New York, will commence its sessions in the M. E. Church to-morrow, Friday evening at 2 o'clock.

RAIN.—There were refreshing showers of rain yesterday and last night, and we hear they extended all round this neighborhood. They will revive the pastures, and be beneficial to the growing crops of cereals and vegetables.

THE MARKET.—This morning, was well supplied with vegetables and fruits. Cherries are abundant.

LOCAL BREVITIES.—The Composed Literary Association, of this place, composed mostly of our German fellow-citizens, is flourishing. The officers are: President, E. H. Encke; Vice-President, E. E. Simon; Secretary, H. Mullen; Treasurer, A. Dreifus.

A corpulent commission merchant informed one of the reporters for the Gazette this evening, that as he could not run he had been compelled to carry a pistol for the last few days in order to protect himself against an anticipated assault by an infuriated cow that was usually stationed waiting for victims on Water street.

Fishing by seines and gill-nets has ceased on the Potomac.

D. L. Smoot, esp., our excellent Commonwealth's Attorney, has removed to his new residence on Water street.

Much complaint is made by persons living in the suburbs, concerning the noxious smells arising from the hog pens kept just about the Corporation limits.

There are many gutters, cellars, and back yards in town, which want cleaning and lime.

Mr. Reamer formerly of the Loudoun Hotel in Leesburg, has become the proprietor of the Exchange Hotel in Fredericksburg.

Complaint is made of the condition of the street at the intersection of Washington and Franklin. An excavation has been made there into which horses and people may fall and be seriously injured at night.

Now is the time for the grass growing in the gutters to be removed.

COLORADO EXCURSION.—A large number of colored people from Washington accompanied with a band of music arrived here on the night of Monday last. They were on a special train of cars at the foot of King street, for Warrenton where they went to spend the day.

FIGHT.—A fight occurred yesterday evening at the canal locks between two lock tenders named Taylor and Dean and a canal boatman named Denison. A large crowd was attracted by the disturbance, but before the police arrived everything was quiet.

UNDERGOING INSPECTION.—The steamer City of Alexandria was taken off the Washington ferry line to-day, to undergo the usual Government inspection. Her place was supplied by the Wawaset.

COLORADO FELLOW'S EXCURSION.—Lancaster Lodge of Colored Odd Fellows will make an excursion to Richmond on the 21st inst., via the O. A. & M. and the C. & O. railroads.

MARKET HOUSE.—A large and fine photograph of the former Market House and Steeple is at Mr. Schuler's photograph gallery, corner of King and Pitt streets.

CORPORATION LICENSES.—Corporation licenses amounting to \$8,869.84 were issued up to the 15th inst.

TELEGRAPH NEWS.

[Special Dispatches to the Gazette.]

FOREIGN NEWS.

LONDON JUNE 1.—A Times' special dispatch from Paris says that the Versaille troops are not now as popular as when they entered Paris because of the severe measures taken by them against the population.

Large numbers of Frenchmen and foreigners are returning to Paris to resume commercial and manufacturing operations.

A dispatch from St. Denis to-day says two regiments of the guards have returned to Germany, and their places have been supplied by other troops.

Gladstone has been indisposed, but is now in better health.

The colliers of South Wales have resolved to strike unless conceded an advance of five per cent. on their wages.

Some specie and cotton were saved from the wreck of the Crescent City.

The rumors of agitation and a Carlist rising in Spain are officially contradicted.

The Times has a dispatch from Bombay that Herat fell into the hands of Yakob Khan through treachery, and the Governor was killed.

New York Affairs.

NEW YORK, JUNE 1.—The special committee of the Union Republican General Committee has issued a manifesto to the republicans of New York in which they state that Jackson S. Schultz and Wm. Orton have called on the republicans of the city to reorganize the party.

The special committee advise the republicans of New York not to take part nor lot in this factional movement, adding that the regular organization with Horace Greeley at its head will not dishonor at the command of any usurping State Committee or other unauthorized body.

NEW YORK, JUNE 1.—It is understood that George H. Mamford takes the place of George Walker as one of the Vice Presidents of the Western Union Telegraph Company.

From California.

SAN FRANCISCO, MAY 31.—The British Columbia papers are greatly excited over the prospects of the loss of the island of San Juan, going so far as to advise the British Government to seize it and hold it by force. Joseph Leggett, a seaman of the British steam tug Princess Louise, wrecked in the Straits of Magellan, has arrived here on a sailing vessel. He reports that all the rest of the crew were killed or made prisoners.

British Squadron.

HALIFAX, MAY 31.—H. B. M. ships Cadmus and Volage of the flying squadron, have arrived from Bermuda to victual and refit before sailing for Bahia.

The Markets.

NEW YORK, JUNE 1.—Stocks dull and rather heavy. Virginia sales 687; do. new 731. Money easy at 3. Gold steady at 114. Flour quiet and steady. Wheat quiet and firm. Corn steady.

BALTIMORE, JUNE 1.—Virginia sales, old, 553 bid, 574 asked; do. 1899-73 bid, 741 asked; do. 1897-69 bid, 72 asked; do. coupon, old, 69 bid, 69 asked; do. coupon, new, 70 bid.

FRUITS.—We have received from Mr. M. Bossart, some delicious oranges, lemons and bananas, samples of an invoice of fine, fresh fruit received to-day at his Confectionery, No. 21 south Fairfax street.

MAYOR'S OFFICE.—A stranger, taken up as a suspicious character, was discharged, upon a promise to quit the city forthwith. He was seen by officer Frank's lounging about the corner of King and Alfred streets between two and three o'clock this morning, and as he could give no satisfactory account of himself was taken into custody. He said he came from Washington where his parents reside.

MAGISTRATES' OFFICE.—The examination of the case of Gus Hill, colored, charged with illegal voting at the last election was waived at the instance of defendant's counsel, and defendant bailed in \$500 and for his appearance at the July term of the Corporation Court. Messrs. G. R. Shinn and J. P. Coleman giving the requisite security.

NIGHT REPORT.—Night cloudy and warm. There were no disturbances in any quarter of the city. The judges and one prisoner were at the station house.

APPOINTMENT OF SCHOOL PRIZES.—To the editor of the Alexandria Gazette:—I send you for publication, as required by law, the following scheme of apportionment of State and county school funds between the districts in the county of Alexandria, approved by the Superintendent of Public Instruction, May 30th:

SCHEME OF DISTRIBUTION.—Washington District having no schools this year, I propose giving 300.716 of both funds to Jefferson District, and 377.716 to Arlington District.

RICHARD L. CASE,
County Sup't.

Why Should You go to Blondheim's.

Corner King and Fairfax streets, to buy YOUR SUMMER CLOTHING.

Because you can buy the best.
Because you can buy the cheapest.
Because you can find the largest assortment.
Linen Goods has on hand a great variety of Linen Goods, among which can be found Linen Coats from 75c and upwards; Linen Suits at \$3, \$3.50, \$4 and upwards; Linen Derby Coats, Linen Frock Coats, Fine Alpaca Coats, Grass Linen Coats, Black, Blue and Fine Cloth Derby Coats, and the latest styles of Light-Colored Pants and Vests—all at prices to suit the times.

S. BLONDHEIM,
May 31 Corner King and Fairfax sts.

Received to-day a fresh supply of ORANGES, LEMONS and BANANAS at

M. BOSSART'S,
No. 21 south Fairfax street.

BRASS COCKS, for Ale, Beer, Coal Oil, Liquor, Lard, and Hot Kex, in fine assortment at

J. F. CARLIN & SONS,
my 25 62 King street.

FRESH SALAD OIL, just in store and for sale at 147 King street.

WM. F. BROOKES.

SPECIAL NOTICES.

You Haven't tried them.—Victim of debility, who is responsible for your feebleness? Not yourself, you will say, for you've done all you could to cure it. That's a mistake on your part.

You haven't tried Hostetter's Bitters. Gloomy, dyspeptic, with an uneasy stomach and a world-weary face, of course you don't think yourself responsible for your own troubles. But you are. It is easy to see from your condition that you haven't tried Hostetter's Bitters.

Illness, sufferer, it is not your fault, you think, that your symptoms grow worse day by day. Blue pill doesn't do you any good. Very likely. But you can be brought round for all that.

Why haven't you tried Hostetter's Bitters? Friend, on whom fever and ague alternately blows hot and cold, and whose brain seems to be bursting with the effects of some powerful drug, do you assume the responsibility? O, no! You've taken pills of quinine, and all the regulation medicine you can get, but could you do more? One thing more—the very thing that would have exempted you from all the pangs that now rack you.

You have never tried Hostetter's Bitters.

Nervous, irritable, what have you got to say? You plead that you have taken all the medicines of the pharmacopoeia. If they have done you no good, it is not your fault. You are not responsible. Wrong, all wrong. You have, in reality, nobody to blame but yourself.

Why haven't you tried Hostetter's Bitters?

For all the boasted cures, the Bitters are absolute specifics.

Dooley's Yeast Powder stands unequalled for light, healthy and nutritious rolls, biscuits, griddle cakes, &c. The ingredients used in the manufacture of this powder are not only chemically pure, but so proportioned that the results produced are the same each time. In this respect it possesses superiority over all others in the market. Only two teaspoonsful are required for a quart of flour. For sale by grocers generally. See Dooley's Yeast Powder only. Dooley & Brother, Proprietors, 63 New Street, New York. my 23-61w
